BRUNO NINABER IS A TRADITIONAL ARTISAN...

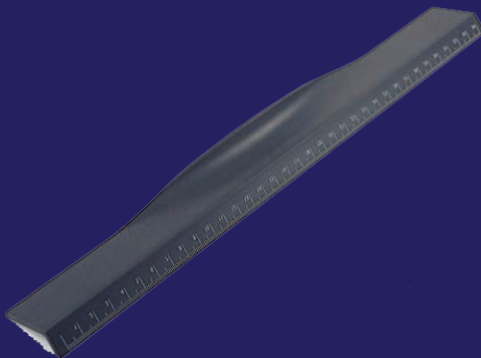

he started his career as a jewellery designer in maastricht
and later on he preferred to stay small to be able to create more
autonomous & personal products

a simple process from art to industrial :

HANDWORK - > AUTOMATED PRODUCTION OF THE SERIES -> IDENTICAL FINISHED PRODUCTS

SMALL & SMART

- one of the first self-producing designer in NL
- he withdrew with ninaber/peters/krouwel when it becomes too business-like
- handwork is first : "the design is in the nature of the workmanship"
"the hand is the cutting-edge of the mind"
- how to use the material :
"explore the techniques to realize combination of material
and at the same time eliminate that aspect in the form."
- "conception, fundamental brainwork, is what makes the difference
in all art."
- it has to be durable and sustainable
- it cares about social functions

...ON A INTERNATIONAL LEVEL,
WITH THE MOST MODERN&AUTOMATED MANUFACTURING TECHNIQUES
